breakage..."*

DuraVision™ Medium Security Mirror

The new range of DuraVision™ Medium Security Anti-Ligature Mirrors are designed for use in Minimum Security Prisons, Hospitals, Mental Health Care and Behavioral Facilities and Municipal Toilets. The one piece PVC frame design is ligature free, resistant to breakage and easy to install. The mirror face is sealed into the front rebate with non-pick sealant. Each mirror is placed in a plastic bag and individually boxed in a single cushion carton. Security Head Torx Screws or Rawl Spikes can be supplied as an optional extra.

FEATURES and BENEFITS

- Available with an acrylic, polycarbonate or stainless steel mirror face.
- One piece encapsulating frame available in 3 sizes.
- 7mm anti-ligature counter-bore mounting holes.
- Sealed with non-pick sealant.
- Recessed, tamper proof fixings increases security and reduces ligature risk.
- PVC water resistant frame.
- Tough, durable and built to last.
